## Streamline IT and simplify your business.

Dell Pro Essential laptops offer basic security, manageability and support for simple IT.

### Security

Encrypt end-user credentials with a **Hardware TPM 2.0 chip**, log in quickly and securely with an optional **fingerprint reader**, and prevent theft by anchoring your computer with the **security lock slot**<sup>4</sup>.

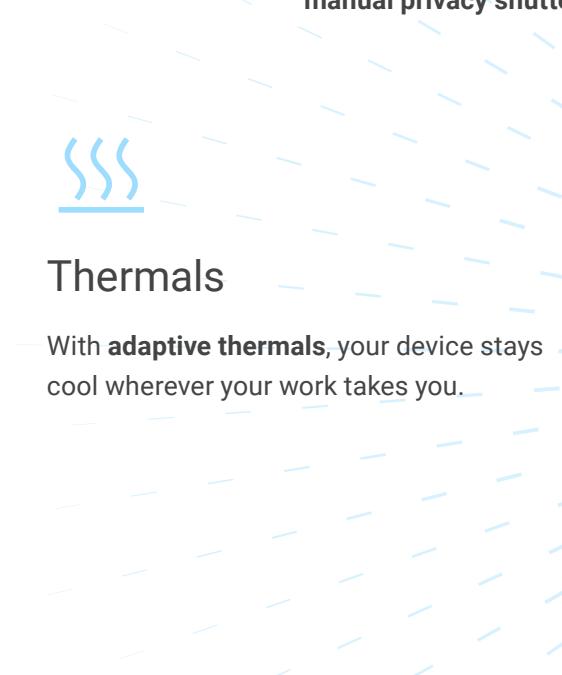

### Manageability

With **Autopilot** and **Microsoft Intune**, streamline device setup by automating configuration and deployment, so your team can start working immediately with minimal IT. With **Dell Management Portal** you can manage Dell PCs over the cloud with Microsoft Intune.

### Support

**Dell Support Assist** detects and resolves issues proactively, while **ProSupport** offers 24/7 expert help. Extend coverage with the **ProSupport 5-year Maximum Warranty** for peace of mind against unexpected issues.

### Operating System

**Windows 11 Pro** enhances productivity with advanced security features and remote desktop access, perfect for managing your business efficiently.

### Configurability

Accelerate your workflow with **Smart Select**, which provides pre-selected device configurations that are ready to ship quickly, ensuring your team gets the right tools without delay.

### Intelligent software

Enhance system performance and security with **Dell BIOS**. Leverage **Dell Optimizer's AI** for application and power optimization and use **Excalibur OS** for recovery support.

## Built for business-ready productivity.

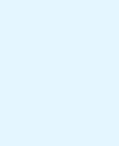

### Camera

Look professional on calls with clients and colleagues with up to an **FHD webcam featuring temporal noise reduction** and a **manual privacy shutter**<sup>5</sup>.

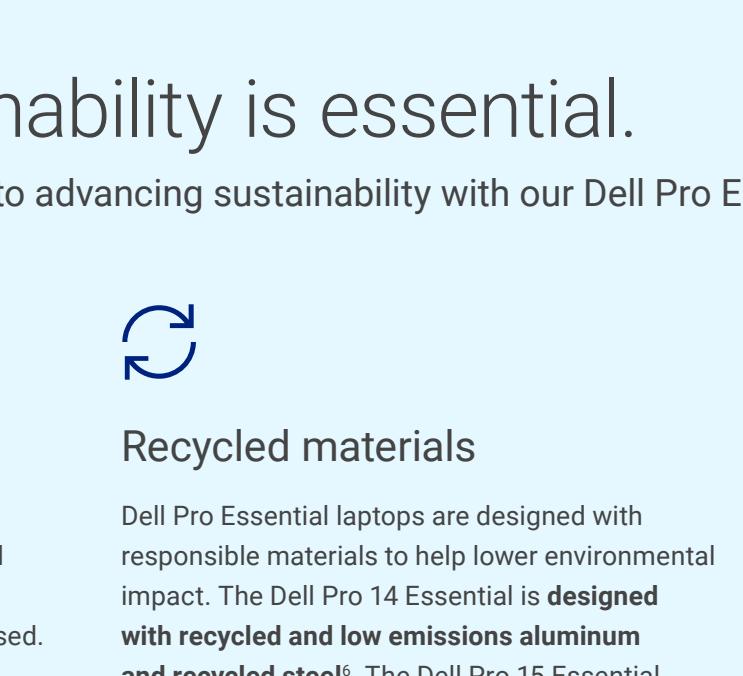

### Display

Keep your eyes comfortable over long working sessions by **reducing blue light emissions** with options for **ComfortView** and **ComfortView Plus**.

### Battery

Stay mobile with a **64Whr battery** for long-lasting battery life<sup>6</sup> and quick recharges with **ExpressCharge**.

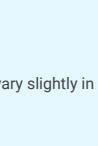

## Because sustainability is essential.

Dell Technologies is committed to advancing sustainability with our Dell Pro Essential laptops.

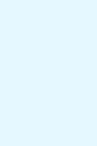

### Design innovation

To reduce our environmental impact we've developed a new method for creating the Dell logo on the top cover of our laptops, which significantly reduces the amount of plastic used.

### Recycled materials

Dell Pro Essential laptops are designed with responsible materials to help lower environmental impact. The Dell Pro 14 Essential is designed with **recycled and low emissions aluminum** and **recycled steel**<sup>6</sup>. The Dell Pro 15 Essential is designed with 30% post-consumer recycled plastic in the palmrest, and 50% post-consumer recycled plastic in the bottom cover<sup>7</sup>.

### Elevated standards

This laptop is **ENERGY STAR® certified**<sup>8</sup>. It is **EPEAT Silver registered with Climate+<sup>9</sup>**. With Climate+ this laptop has met environmental criteria that address climate change and reduce greenhouse gas emissions.

<sup>1</sup> Available with up to Intel® Core™ 7 processor.

<sup>2</sup> Available with up to AMD Ryzen™ 7 5800H processor.

<sup>3</sup> Regions. Availability subject to change. See [www.dell.com](#) for details.
